

St Mawes SC September 2017 Bulletin

Stoneworks Quay.

It has been fantastic to see so many boats in use over the last month or so especially during Junior Race Week and for the Percuil Regatta.

New non-kinking hoses and connectors were purchased this year for use on the three outdoor taps on Stoneworks so users of the Quay could easily wash their boats after using. Unfortunately several connectors, and some of the hose lengths, have been taken from the Quay at various points over the summer. Please can all Quay users question anyone who may leave the quay with a hose or connector in hand so that the expense of regular replacement is minimised.

If you live away from St Mawes during the winter months, we would be grateful if you could remove your craft from Stoneworks to minimise any damage that may be caused by winter storms. We keep an eye on Stoneworks but it is not the responsibility of St Mawes Sailing Club to ensure the safe storage of craft on the quay.

Bart's Bash

Once again in 2017 St Mawes Sailing Club will be taking part in Barts Bash, the global sailing event taking place on Sunday 17th September. This will take the place of our usual Sunday morning racing, with no Sunday points racing that day. The racing will be a single race with ALL classes starting as a single fleet at 10:25. The race is open to all classes from the smallest dinghies to the largest yachts with the main aim to get as many boats on the start line as possible.

To enter the event simply sign up at <http://www.bartsbash.com/participant-sign-up> and follow the instructions, remembering to identify St Mawes Sailing Club as your venue. As in previous years the format of Bart's Bash and their handicapping system allows all boats and classes to compete against one another to identify the overall winner both at St Mawes Sailing Club and globally.

A large part of the purpose of the event is to raise funds for the Andrew Simpson Sailing Foundation. You can make a donation to this when signing up for the event or there will be a collection tin at the bar in the sailing club.

Let's see how many boats and classes we can muster on the start line for this annual global sailing event. If you have any queries about the event please contact: Jim Wood - the Event Maker at woodjimb@gmail.com
